

This Is Me; This Is My World!

Geography, Science, DT & Computing

We will begin our topic by learning how to take clear photos and videos to create a film in iMovie. After that, we will take a trip down Central Avenue and visit one of our local churches! We will investigate what is on our street by looking at maps and photos. We will find out where we live and begin to explore key landmarks in our city such as the Cathedral, the POSH football stadium and Ferry Meadows. We will learn how to join materials in DT and discover how to use a slot join to create buildings so that we can create a 3D street. We will create simple maps of our street. Finally, we will use all the skills that we have learnt to create a beautiful piece of work. We will create a film to share what we have created with others. We will notice what happens in nature during Autumn and we will visit the Kitchen Garden and use the Weather Station to observe weather patterns.

PE

In Dance, we will learn how to travel in different ways, understand what a freeze frame is and how to sequence movements together. Our outdoor PE sessions will be delivered by our sports coach and will focus on a range of skills, where we will consider our awareness of space and how we travel with coordination. We will ensure that we are safe by listening carefully and following instructions.

RE

We will focus on churches by exploring the features of a church such as the altar, font, lectern and pulpit. We will find out what happens inside a church and consider why going to church is important to Christians. We will consider the value of respect as we share our opinions and thoughts with each other.

Music

We will learn all about keeping the pulse and we will use instruments to play alongside simple songs and rhymes.

English

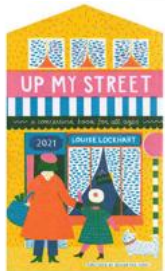

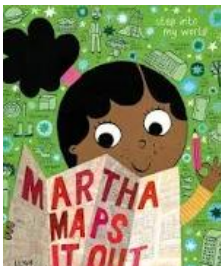

We will begin our learning journey in Year 1 by thinking about friends and our new class family. We will read the story 'Meesha Makes Friends'. We will write simple sentences using finger spaces and forming letters correctly. We will begin to use capital letters and full stops. At the end of the unit, we will write our own diary entry!

Maths

We will focus on place value within 10 by representing numbers using objects and pictorial representations. We will use language such as **more than, less than, fewer, most, least** and **equal**, to compare groups. We will identify one more and one less than a given number and explore a number line to practise counting.

PSHE

We will focus on health & wellbeing in PSHE. We will learn how important it is to look after our emotions. We will think about how we feel and name emotions using the Scribble Spot characters. We will learn what we can do when our feeling get tricky. We will also think carefully about how we behave in school so that we are ready for learning, our school is a safe place for everyone and the importance of being respectful to others and our school resources.

This Is Me; This Is My World Learning Journey

Play 2 Learn focus:
Perseverance
Communication
Respect *(for each other & the environment)*

Big Question:
What's on my street?

STEP 1

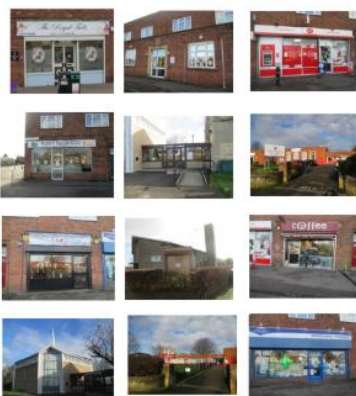

Computing

Insert photos and videos to make a film

STEP 2

Geography

Visit Central Avenue
Identify features of a street

Key vocabulary:

city
street
local
house
shop
library
church
map

STEP 3

Geography

Create a street.
What can you see on your street?

STEP 5

DT

Use joins to make a building

<https://www.bbc.co.uk/bitesize/articles/zdqk239>

STEP 6

DT/RE

Use joins to make a church

tape

stick

fold

STEP 4

Geography

Explore maps
Create a simple map

Final beautiful piece

Evaluate/reflect

Double Page Spread
What's on my street?
