

# Year 2 comet (the last one)

We have completed our final double page spreads at DIS! Our cress experiments have also come to an end. We have compared the different environments and know what a plant needs to grow. Some of us even took them out of the freezer and the cress has come to life!

In Maths, we have been using positional language such as forwards, backwards, left and right when describing movements. When describing turns we have been using the vocabulary such as clockwise, anti-clockwise, quarter and half turns.

We have been working hard preparing our Shine time Showcase. We hope you can join us.

In our poetry unit we have been thinking about the qualities that make us special and different. We have been creating riddles and writing clues so we can guess who we are describing.
