

Year 2 - Spring 2 2020.

Year 2 have been making dream catchers by learning how to manipulate willow to make it into a circle and then use our fine motor skills to thread and join wool to create a web for all those lovely dreams to be caught! This has been a little tricky as we have been tying lots of knots but the children have shown great perseverance and determination and succeeded in creating some amazing dream catchers.

The children have worked together to create a big 'bug hotel' out of large wooden pallets in the Forest School area. They have filled it with grass, leaves, sticks, bricks, tubes and compost so all those lovely bugs and insects can make new homes!

The children have shown great skill in using the tools needed to create small bug hotels out of elder. They have used a hacksaw to cut the elder, used a potato peeler to take the bark off and then used a 'pokey outy' tool to poke out the pith from the middle of the elder.

As you know it's the 'Year of Reading' at Dogsthorpe Infants so we read the story 'Superworm' by Julia Donaldson, I wonder if our worms in our wormery are as busy as Superworm!

The weather has been kind to us this half-term and we have once again been able to make a fire to put our kelly kettles on to have hot water to make yummy hot chocolate with a biscuit while enjoying a sing song!

A huge thanks to all the adults in Year 2 for helping me to make Forest Schools a unique learning opportunity for all our little stars.

Miss Stamper  
Forest School Leader
